WHO AM I?

Born 16 November 1995 in Leonforte (EN) and actually based in Milan.
I am a very curious person and I like challenges because they stimulate me.

WHAT I'M LOOKING FOR?

I am looking for a stimulating job full of new challenges. My goal is to be a software engineer so I would like to work in a company where I can grow professionally.
Last but not least I prefer to work in a team.

WHAT CAN I OFFER?

I love learning about new technologies, expanding my horizons and talking to people because I think they are a great source of news. So in me you will find a person who loves challenges and maintains good harmony within the group to achieve maximum results.

SKILLS

My skills are always growing and evolving so I prefer not to include them here but you can find the updated version on my website.

EXPERIENCE

2019 – 2020
freelance

Software Engineer/Full Stack Developer   **Android/iOS app "Ritm-U"**
I developed this mobile app with a friend at the request of a client. This was a really challenging experience because for the first time I faced a real world case. In particular I designed the **architecture**, developed the whole **back-end** part, developed an algorithm that analyze the breath frequency using **machine learning** techniques and developed some **front-end** components.

EDUCATION

2018 – in progress   **Master's Degree**   **University of Milan**

Sep 2019 - Feb 2020   **Erasmus**   **University of Paris Saclay**
I followed a master of Data Science and passed 5 exams. That was a really intensive experience where I improved a lot my adaptive skills.

2015 – 2018   **Bachelor's Degree**   **University of Milan**
Final mark: 108/110
Thesis title: DSL in Neverlang for reflective petri nets
Supervisor: Walter Cazzola

2014   **High School Diploma**   **Liceo Classico Nunzio Vaccalluzzo LEONFORTE (EN)**
Final mark: 100/100
